

KIRCH & CO[®]

The George Nelson Collection

with 1950's Moderne

The Kirch brand is synonymous with exceptional design and the highest possible quality in home décor. From clocks to chairs, the company invests in designs that delight with beauty, originality and innovation. We believe every product we sell should be a joy to own, whether a museum quality reproduction or an original work of art.

In a consumerist world of cheap disposable products, Kirch serves discerning people who value true quality and who take the care to invest in artistry, even for everyday functional objects. Kirch and the people who buy our creations object to the waste inherent in unattractive, poorly made objects. We respect the craftsmen who make our products and the materials that go into them. While our commitment to design and workmanship does not come cheaply, we do strive to keep prices within affordable reach.

Kirch's commitment to exceptional design and quality craftsmanship goes beyond the aesthetic to embrace the value of respect for resources and the people who contribute their talents to manufacture our creations. We are committed to enhancing functional utility of our products. We continue to invest in innovations to one of the oldest of information devices—clocks are arguably the world's first computer.

Classic Eye Clock

This clock is an oversized version of George Nelson's famous Eye Clock design. Prized by collectors, the Eye Clock is a study in sophisticated whimsy. The design is a visible expression of his belief that industrial design had become too "antihuman". Originally meant to be hung on the diagonal, this clock works horizontally or vertically. Graceful curves work in harmony with straight lines to create this interpretation of the eye. George Nelson's signature bold triangle hour hand and long, narrow minute hand create the focus at the center of the eye's black iris. Made to the exacting specifications of George Nelson to create a museum quality piece. High quality quartz movements powered by one AA battery to keep accurate time. Included hanging hardware makes secure installation easy without unsightly wires.

Dimensions: 13" H x 30" W x 3 1/2" D

Materials: lacquered wood, metal, quartz clockwork (AA battery not included)

Item: G80930G

Sunburst Clock

The Sunburst Clock is one of the most recognized icons of American Modernist design. Created in 1950, the clock's simple and elegant representation of the rays of the sun convey the energy and optimism of the Post-War economic and creative boom. This clock has been carefully reproduced in wood and zinc alloy to the exact construction, color and finish originally specified by George Nelson. Measuring 18 ½ inches across, the clock makes a dramatic focal point to any room. High quality quartz movements powered by one AA battery to keep accurate time. Included hanging hardware makes secure installation easy without unsightly wires.

Dimensions: 18 1/2"Dia x 3 1/8"Deep

Materials: solid wood, metal, quartz clockwork (AA battery not included)

Item: G81319CL (Multicolor)

Item: 1220-12 (Woodgrain)

Item: 1220-B (BlackEnamel)

Block Clock

The Block Clock, designed circa 1960, is one of the later design explorations of George Nelson. Always seeking to innovate with diverse materials and sculptural shapes, he created this colorful creation of blocks on stems. Classic geometric black hour and minute hands contrast with the cream colored face at the center of the clock. Manufactured to the exact specifications of George Nelson. High quality quartz movements powered by one AA battery to keep accurate time. Included hanging hardware makes secure installation easy without unsightly wires.

Dimensions: 11 1/2"Dia x 2 3/4"Deep

Materials: blue lacquered beech wood, white metal face, quartz clockwork (AA battery not included)

Item: G80711BL

Star Clock

Originally marketed as "Clock # 2227", this George Nelson design quickly earned the nickname "The Star Clock" for its stylized radiating beams. Each beam is sleekly crafted in alternative brass and chrome tones that radiate out from a sturdy black zinc alloy metal center to a dramatic 25-inch diameter. The beams of the star are balanced by signature George Nelson hour and minute hands. Carefully manufactured according to George Nelson's original specifications. High quality quartz movements powered by one AA battery to keep accurate time. Included hanging hardware makes secure installation easy without unsightly wires.

Dimensions: 25"Dia

Materials: all metal (AA battery" not included)

Item: G80825G

Wooden Spindle Clock

Designed at the height of George Nelson's creative powers, the 1957 Spindle clock's simplicity reveals the precision craftsmanship of the bold block silhouette of each wooden spindle that mark the hours around brushed aluminum face. The geometric shapes of George Nelson's signature "atomic" hands add a definitive statement to this piece. The clock is manufactured to the exact original specifications of George Nelson. High quality quartz movements powered by one AA battery to keep accurate time. Included hanging hardware makes secure installation easy without unsightly wires.

Dimensions: 19 3/8"Dia x 1 3/4" Deep

Materials: solid wood and metal (AA battery not included)

Item: 1120-Dark

Turbine Clock

This innovative design begs a second look. From a distance, the shape and weight recall the natural energy of George Nelson's classic Sunburst Clock. Look closer and you'll see the rays are actually the interlocking blades of a manmade energy source, the turbine. The kinetic brass tone shapes of the turbine blades point clockwise around a contrasting brushed aluminum layered over a wooden core at the center. The black teardrop hour hand contrasts with the long thin rust colored rectangle of the minute hand. This oversized version of the classic design is a full 30" inches in diameter. Construction, materials, finish and colors are true to Nelson's original 1957 design. High quality quartz movements powered by one AA battery to keep accurate time. Included hanging hardware makes secure installation easy without unsightly wires.

Dimensions: 30"Dia x 3 1/2" Deep

Materials: metal and wood (AA battery not included)

Item: G81130G

Iconic Ball Clock

The story behind this clock design is emblematic of the era. George Nelson recalls an impromptu gathering of the era's design stars along with freely flowing cocktails. Everyone gathered around paper, and began sketching and trading ideas. The next morning, George Nelson found the roll of drafting paper that everyone had been using, and there amongst the many ideas was this whimsical design. Composed of colorful balls instead of numbers on the end of metal stems, the clock is manufactured to the exact original specifications of George Nelson. High quality quartz movements powered by one AA battery to keep accurate time. Included hanging hardware makes secure installation easy without unsightly wires.

Dimensions: 13 1/8" Dia x 2 3/4" Deep

Materials: lacquered wood, metal, and zinc alloy (AA battery not included)

Item: G81015CL

Planet Clock

By making one small change to a classic design, George Nelson created a design that is entirely new in its references. Resembling atoms around a nucleus or planets around a sun, the design is a visual connection between the Atomic Age and the Space Age. Colorful balls on arching metal orbits circle into the sleek brushed metal face of the clock. Simple silver tone hands show the time. High quality quartz movements powered by one AA battery to keep accurate time. Included hanging hardware makes secure installation easy without unsightly wires.

Dimensions: 13" Dia x 3 1/8" Deep

Materials: Silver finished metal and solid wood balls (AA battery not included)

Item: 1820color

Crown Star Clock

The story behind this clock design is emblematic of the era. George Nelson recalls an impromptu gathering of the era's design stars along with freely flowing cocktails. Everyone gathered around paper, and began sketching and trading ideas. The next morning, George Nelson found the roll of drafting paper that everyone had been using, and there amongst the many ideas was this whimsical design. Composed of colorful balls instead of numbers on the end of metal stems, the clock is manufactured to the exact original specifications of George Nelson. High quality quartz movements powered by one AA battery to keep accurate time. Included hanging hardware makes secure installation easy without unsightly wires.

Dimensions: 13 1/8"Dia x 2 3/4" Deep

Materials: lacquered wood, metal, and zinc alloy (AA battery not included)

Item: G81015CL

Museum Classic Star Clock

Originally marketed as "Clock # 2227", this George Nelson design quickly earned the nickname "The Star Clock" for its stylized radiating beams. Each beam is sleekly crafted in alternative brass and chrome tones that radiate out from a sturdy black zinc alloy metal center to a dramatic 25-inch diameter. The beams of the star are balanced by signature George Nelson hour and minute hands. Carefully manufactured according to George Nelson's original specifications. High quality quartz movements powered by one AA battery to keep accurate time. Included hanging hardware makes secure installation easy without unsightly wires.

Dimensions: 25"Dia

Materials: all metal (AA battery not included)

Item: G80825G

Price:

Mirrored Danish Sunburst Clock

Similar in form to the classic Silver Starburst Wall Clock, this timepiece brings reflective style to this highly collectible design. The minimalist clock face is simplified with a brushed satin aluminum center uncluttered with numbers. Manufactured to the exacting standards of George Nelson. High quality quartz movements powered by one AA battery to keep accurate time. Included hanging hardware makes secure installation easy without unsightly wires.

Dimensions: 19 3/8" Dia x 1 3/4" Deep

Materials: Beveled mirror and chrome plated steel (AA battery not included)

Item: 1220-Mirror

Price:

Bold Wall Clock

As a counterpoint to his own designs that made a point of avoiding hour numbers, George Nelson makes them the focal point of this creation. Bold numerals balance on the end of metal bars, radiating from the face. His signature teardrop hour hand and long narrow minute hand. High quality quartz movements powered by one AA battery to keep accurate time. Included hanging hardware makes secure installation easy without unsightly wires.

Dimensions: 13 3/8" Dia x 1 1/2" Deep

Materials: Metal and Styrene (AA battery not included)

Item: MT-41-New

Price:

Metal Spoon & Fork Kitchen Clock

George Nelson had a genuine appreciation for the visual pun. He used the design device for this iconic clock. In designing a kitchen clock, he incorporated kitchen implements into the design in a clean, uncluttered way that makes a bold and clever statement. A fork and knife serve as the hour and minute hands pointing to the oversized black numbers. All finished in bright chrome. High quality quartz movements powered by one AA battery to keep accurate time. Included hanging hardware makes secure installation easy without unsightly wires.

Dimensions: 15 1/4" Dia x 2 3/4" Deep

Materials: stainless steel (AA battery not included)

Item: 1234spoon-16

Price:

Spoon Kitchen Pendulum Clock

With this design, George Nelson argues against the tyranny of industrial design and the straight jacket of “form follows function”. Indeed, he believed design was “giving form to ideas”. Taking inspiration from the Spoon & Fork Clock, this interpretation gives the spoon the function of the pendulum below the bold circular form of the clock face. A fork and knife function as the hour and minute hands. High quality quartz movements powered by one AA battery to keep accurate time. Included hanging hardware makes secure installation easy without unsightly wires.

Dimensions: 7" Dia x 11 7/8" H 2 3/4" Deep

Materials: Metal and glass (AA battery not included)

Item: 1415Spoon

Price:

Wooden Pixel; Sunray Clock

This classic sunburst design relieves the radial pattern of metal rods with the warm tones of wooden rectangles. The contrasts work in pleasant harmony to around the brushed chrome metal center of this clock. Done in the style of Mid-Century modern, the design retains the sleek symmetry of the period. The slim black hour and minute hands sweep across the brushed chrome center of the clock. High quality quartz movements powered by one AA battery to keep accurate time. Included hanging hardware makes secure installation easy without unsightly wires.

Dimensions: 19 3/8" Dia x 1 3/4" Deep

Materials: Metal, wood and glass (AA battery not included)

Item: CK1384-20

Price:

Mirror Pixel; Sunray Clock

The radial pattern of metal rods in the sunburst design is works in contrast to the rectilinear mirrors that array around the satin brushed aluminum metal center of this clock. Done in the style of Mid-Century modern, the design retains the sleek symmetry of the period. The slim black hour and minute hands sweep across the satin brushed aluminum center of the clock. High quality quartz movements powered by one AA battery to keep accurate time. Included hanging hardware makes secure installation easy without unsightly wires.

Dimensions: 19 3/8" Dia x 1 3/4" Deep

Wood Planet Incurved Starburst Wall Clock

By making one small change to a classic design, George Nelson created a design that is entirely new in its references. Resembling atoms around a nucleus or planets around a sun, the design is a visual connection between the Atomic Age and the Space Age. Colorful balls on arching metal orbits circle into the sleek brushed metal face of the clock. Simple silver tone hands show the time. High quality quartz movements powered by one AA battery to keep accurate time. Included hanging hardware makes secure installation easy without unsightly wires.

Dimensions: 13" Dia x 3 1/8" Deep

Materials: Silver finished metal and solid wood balls (AA battery not included)

Item: 1820color

Pill Clock

With this design George Nelson achieves the sleekest interpretation of the starburst motif. The look is as contemporary as the day it was first conceived. A clean circular block anchors the center. Metal bars radiate out and are tipped with solid steel cylinders, giving the form both grace and balance. High quality quartz movements powered by one AA battery to keep accurate time. Included hanging hardware makes secure installation easy without unsightly wires.

Dimensions: 13" Dia x 1 1/4" Deep

Materials: All metal (AA battery not included)

George Nelson Authentic Steering Wheel Wall Clock

Capturing the suave elegance of a 1960's roadster, the George Nelson Steering Wheel clock is a shining example his signature art for metaphor in every day objects. The leather wrapped steering while of classic English Roadsters is mimicked in enameled metal. The four spokes of the wheel mark the quadrants of an hour. Simple brushed aluminum hands circling the open face keep the focus on the metaphor. High quality quartz movements powered each powered by one AA battery to keep accurate time. Included hanging hardware makes secure installation easy without unsightly wires.

Dimensions: 12" Dia x 2 3/4" Deep

Materials: All metal (AA battery not included)

Item: G81212B

Price:

George Nelson Glass Spectrum Pantan Wall Clock

Dating to 1960, the lore on this the Petal Clock is that George Nelson was inspired by the shape of a four-leaf clover. He chose popular colors of the period transcend the original idea. A refreshing alternative to usual timekeepers, we manufacture this clock true to the original form and specifications of the museum piece originals. High quality quartz movements powered each powered by one AA battery to keep accurate time. Included hanging hardware makes secure installation easy without unsightly wires.

Dimensions: 16" Dia x 1 3/4" Deep

Materials: Glass and metal (AA battery not included)

Item: 1439-16-NEW
